## EARLY END OF PHONE STRIKE NOT IN SIGHT

Philadelphia, Nov. 16 — (AP)—The nationwide telephone strike—marked by flaring tempers on the picket line and a legal tug-of-war over injunctions—entered the second week today with no immediate prospect of peace.

The Bell Telephone Company of Pennsylvania applied for a court injunction that would prevent picketing of the company's exchanges in Philadelphia, scene of picket line battles Tuesday and Wednesday. A hearing on the injunction request was scheduled for tomorrow before President Judge Frank Smith of Common Pleas court.

The request for a court order and 200 police officers dispersed today the strikers' third effort at mass picketing of a Pennsylvania Bell Exchange, where members of an independent union have refused to honor the CIO picket lines.

Some 200 pickets appeared before 9 a. m., at the 17th and Tioga streets exchange building in north Philadelphia. But there were more blue-uniformed police officers on duty than pickets.

Bell telephone operators reporting for work stood aside for a short time while the pickets circled on the sidewalk. Then Andrew T. Ortlieb, treasurer of CWA Local 72, reported to John H. McNamee, the local president who was on picket duty.

Ortlieb showed McNamee a copy of the request for a temporary court order. He said was served on him last night. It banned the restraint of Bell telephone employees from going to work, he reported.

And in New York, an A. T. & T. stockholders meeting was conducted against a backdrop of boos and catcalls. The meeting was attended by a number of employee-stockholders.

The Bell injunction request here followed similar action in seven other states. Injunctions against picketing were granted in Louisiana, Virginia, Kentucky, and Wisconsin but were refused in Nebraska and Georgia. Action is pending in New Jersey.

The Wisconsin injunction—issued at Milwaukee by Circuit Court Judge Walter Schinz—restrains Western Electric workers from picketing the offices of the Wisconsin Telephone Company. The order was granted at the request of the state's Employment Relations Board.

District Judge James M. Patton at Omaha refused to grant an injunction banning picketing of the Northwestern Bell facilities. He contended Nebraska law already forbids picketing of public utilities.

Picketing was resumed at Birmingham, Gasden and Anniston, Alabama, after a court ruling dissolved a temporary injunction.

## STRICKLER HAS CHAT WITH SERVICEMEN

Camp Atterbury, Ind., Nov. 16 — (AP)—GI's sprang to attention when Major-General Daniel Strickler walked into the 23rd National Guard's servicemen's center not long ago but the general quickly put them at ease—then sat down to hear his men tell their problems.

In a fast question and answer period, Strickler let the enlisted men pour questions at him. If he knew the answers, he gave them; if he didn't, he told them so.

Afterwards Strickler said he'll continue such informal chats, commenting: "Too many soldiers are unnecessarily afraid of rank. The only way I can get them to tell me their troubles is to go to them."

## Arkansas and Texas Planning To Have Two Thanksgiving Holidays This Year

Washington, Nov. 16 — (AP)—Two states—Arkansas and Texas—will have two Thanksgiving days this year.

They will observe both the Nov. 23 date proclaimed by President Truman as the national day of Thanksgiving and also their own Nov. 30 holiday.

Mr. Truman fixed the Nov. 23 date in line with a congressional resolution calling for Thanksgiving on the fourth Thursday.

The tangle over different Thanksgiving dates began in 1939, when the late President Franklin D. Roosevelt decided to make the next-to-last Thursday as the date for celebrating.

Mr. Roosevelt reasoned that it

## Printz Store Opening Attracts Crowd

—Photo by Stokes

The magnificent new Printz Co. store in Second avenue, lauded by visitors from far and wide as one of the most attractive to be found between New York and Chicago, held open house Wednesday afternoon from one until nine p. m., during which visitors estimated at 2,500 thronged through the attractive haberdashery amazed at the beauty of the interior, fixtures, and color schemes, as well as the complete stocks to be found in all departments.

Among the visitors were representatives of scores of the nation's leading manufacturers of products handled by the company, as well as companies interested in fixtures, designing, reporting, etc., including a writer for the Daily News Record, of New York, outstanding trade journal.

The attractiveness of the store was enhanced

by the many large baskets of fall flowers, mostly beautiful chrysanthemums, that had been received from well-wishers in Warren and nearby towns. Over a half hundred greetings were received by wire and mail during the day.

All eight stores of the company, in Warren and Youngstown, O., Jamestown, N. Y., Meadville, Franklin, O. City and Kane, were represented at the opening, and remained to attend the party and smorgasbord held at the Marconi Outing Club at nine o'clock in the evening. The luncheon was prepared and served by the Lewis Catering Service.

Warren is indeed fortunate in being able to boast such a beautiful and well stocked store, and the Times-Mirror joins with the thousands of admiring visitors who attended the opening, in extending congratulations and best wishes to the enterprising firm.

## Junior Chamber of Commerce Donates \$400 Toward Community Youth Canteen

The membership of the Warren Junior Chamber of Commerce last night voted to donate \$400 to the Community Youth Canteen Committee to be used in the completion of the canteen building at the rear of the YMCA.

The canteen committee is currently conducting a drive in an effort to finish the canteen building this winter so that the youth program can begin. A youth committee has been working on the project, and an adult steering committee representing many local organizations has been organized to help establish the program.

Last year the Jaycees sponsored a "Parade of Magic" and proceeds from this were used to place a cement floor in the annex which is to become the canteen. The building, however, is far from finished. Heating, lighting, painting, doors, furniture, equipment, and rest rooms, are still necessary before the building can be opened.

Francis Buchanan made the motion last night that the Jaycees contribute \$400 cash as well as the proceeds from Vaudeville Show November 25th. In passing the motion unanimously, the membership expressed the hope that other organizations and individuals would step forward with their help and contributions so that the canteen could become a reality.

The speakers at last night's meeting were Thomas Yochim, representative of the Erie Social Security office and Hugh Lauffer, Warren High School student. Lauffer gave his winning speech on "I Speak for Democracy" which will be entered in the state competition in Harrisburg this weekend.

The Jaycees welcomed three new members last night. They are John Smith, Harold Johnson, and Ralph Sandburg. The chapter also

## Electric Iron Starts and Puts Out a Fire

Washington, Nov. 16 — (AP)—An electric iron which someone forgot to turn off started and put out a fire in an apartment house here yesterday.

Firemen who answered an alarm said they found that the iron burned through the ironing board, then through the floor where it melted a lead water pipe.

By the time firemen arrived, the spray of water from the melted pipe had extinguished the smoldering fire. Damage was slight.

## MYSTERIOUSLY SHOT.

Pittsburgh, Nov. 16 — (AP)—State and Allegheny county police are trying to learn how a 13-year old boy was shot fatally while raking leaves in the backyard of his home. Everett Beal of R. D. 1, Clinton, died last night little more than six hours after a bullet struck him in the back. The tragedy occurred near Clinton, about 25 miles west of Pittsburgh. Officers theorized the bullet came from a .22 calibre rifle of a squirrel hunter.

## Senate Crime Investigating Committee "Shocked" By Legal Gambling in Nevada

Los Angeles, Nov. 16 — (AP)—Senate crime investigating committee, "shocked" and "outraged" by what they learned about legal gambling in Nevada, turn today to Mickey Cohen and Los Angeles

Returning from a one-day session in Las Vegas, Nev., the committee had in its records such eye-brow-raising tales as these:

Police Chief L. R. Gresson of Reno said a New York gambler, Joseph Stacher, boasted that he'd spend \$250,000 to see that there was a change in Reno's administration, because Gresson turned down Stacher's petition for a license and proposed purchase of one-third interest in Reno's Bank Club.

Wilbur Clark, president of the Desert Inn in Las Vegas disclosed that because he was hard-pressed for money to build the Lush Place in 1947 he got \$1,500,000 from a Cleveland, O., gambling syndicate which now, therefore, owns 74 per cent of the joint. Clark said the syndicate includes Sam Tucker, Moe Dailitz, Maurice Kline and Tom McGinty.

Lt. Gov. Cliff Jones of Nevada, on a \$600-a-year salary, said he has an interest in three Las Vegas gambling spots and that his ownership of only one per cent of the Golden Nugget pays him \$12,000 a year.

## 50,000 Affected By Ford Curtailment

Detroit, Nov. 16 — (AP)—The Ford Motor Co. was entered today upon a series of staggered shutdowns affecting 50,000 employees.

Plant closings over a period of three weeks began last night when Ford quit all manufacturing operations at its big Rouge factory until Monday.

Management blamed a "continuing labor slowdown" in the steel rolling mill at Rouge and parts and materials shortages.

The CIO United Auto Workers took exception to the slowdown charge, asserting the company was at fault for a steel shortage.

After Tuesday, Rouge's 50,000 men will be idle the rest of the week. There will be another shutdown Nov. 30 and Dec. 1.

## \$10 BILLION EXTRA NEEDED FOR DEFENSE

Washington, Nov. 16 — (AP)—Congress probably will get a request for about \$10,000,000,000 in added defense funds soon after it returns for a short session beginning Nov. 27.

Defense department planners are known to have drafted a proposed bill covering such a request in the hopes that the 81st congress will find time to vote the added money.

The session must end with the seating of the 82nd congress next Jan. 3, and probably will earlier. President Truman was expected to say at his news conference today whether he will call congress back sooner than scheduled. It was generally believed he would not.

The supplemental appropriation proposal would raise to about \$35,000,000,000 the total of military funds for the fiscal year ending next June 30.

Since the Korean war started, congress has added appropriations of \$10,400,000,000 and \$1,100,000,000 to the \$13,200,000,000 regular military budget for this year.

The third supplemental request is expected to provide for a greater share for the Korean war than was asked in the measures submitted to congress last summer and fall.

More than 60 per cent of the money in the first two bills was earmarked for the building and procurement of new weapons, planes and ships.

The proposed bill is expected to set larger manpower goals than the 2,100,000 total used as a planning figure for the armed services last July. Since then, defense officials and some congressmen have spoken in terms of a 3,000,000 man armed force by June, 1951.

By the end of December the Army will have in service or on call nearly 1,000,000 men. This total includes regulars, National Guardsmen, reserves and draftees.

## "Russian Roulette" Victim at Indiana

Indiana, Pa., Nov. 16 — (AP)—The Indiana county coroner said a young hospital orderly was wounded fatally the third time he pulled the trigger of a revolver while playing "Russian roulette" last night.

Dr. Edward L. Fleming gave the following account of the death of Fred Chapla, 20, of nearby Josephine, an employee at the Torrance State Hospital:

Chapla went to the home of Austin Osman of Josephine and borrowed a .32 calibre pistol to take bear hunting. After being given the gun, Chapla asked Osman and his wife:

"Do you know how to play Russian roulette?"

Neither Osman nor his wife answered. Chapla inserted one bullet in the weapon's chamber and placed the muzzle against his head.

He pulled the trigger and there was a click—once more and another click.

The third time, the bullet tore into his brain.

## NEW HURRICANE

Miami, Fla., Nov. 16 — (AP)—A small but vicious tropical hurricane which swept the entire length of the Florida Peninsula in mid-October was officially labeled today as a \$28,000,000 storm. Grady Norton, chief forecaster in Miami, said in his official report to the U. S. Weather Bureau in Washington, D. C., that the storm took four lives, severely injured 16, and caused minor injuries to 183 persons.

## National Grange For Universal Training

Minneapolis, Nov. 16 — (AP)—The National Grange today considered a program, including universal military training, for the nation's young men, at its annual meeting here.

That recommendation came from Albert S. Goss, National Master who died of a heart attack Oct. 23, in his annual address which was read to delegates last night.

"I believe that every young man should devote a certain portion of his time in direct service to his nation as long as the threat of attack exists," Goss said in his address, completed before he died and read to delegates by Henry D. Sherwood, his successor.

## Pa. Civil Defense Leaders Hearing Progress Reports

Harrisburg, Nov. 16 — (AP)—Maj. Gen. Richard K. Mellon today told a Civilian Defense Conference their program may last "as long as 50 years."

Mellon, chief of the state's Military and Civil Defense Commission, opened a one-day progress conference of more than 750 directors of Civilian Defense on the county and municipal level.

"Civilian defense is being planned for the long haul," Mellon said. "As long as a world power seeks to dominate the universe through violence and threats of violence."

"We don't have the answer to when the threat will end," he said. "It may be one, five or 50 years. As long as the threat exists we must have a defense program."

Other speakers were Gov. James H. Duff, Hubert R. Gallagher, the National Securities Resource Board deputy director, Major General Frank A. Weber, state adjutant general, and Col. Alton C. Miller, head of state civilian defense.

The state leader listed development as: Publication of "the effect of atomic weapons," by the U. S. Defense Department; the NSRB report in September; and other directives from the federal agency since.

Scheduled to speak at the morning session were Gov. James H. Duff, Hubert R. Gallagher, deputy director of the Federal Civil Defense office; U. S. Sen. Edward Martin; and U. S. Sen. Francis J. Myers.

The county and municipal leaders will ask question of the state and federal defense officials in a forum during the afternoon.

Following the forum, problems of individual and family preparation for atomic attacks will be explained by Dr. Richard Gerstell, Lancaster. Gerstell wrote the handbook, "how to survive an atomic bomb" for the Atomic Energy Commission.

Problems involved in recruiting personnel for the organization, obtaining medical supplies and planning disaster aid to stricken areas will be aired in the final phase of the discussion.

## VETERAN ATTORNEY

Harrisburg (Ark., Nov. 16 — (AP)—Attorney J. J. Mardis expects to celebrate his 100th birthday Saturday by trying a case. He's to represent a litigant in chancery court. Mardis has been practicing law in Harrisburg for 65 years. He will be honored later Saturday at a meeting of the northeast Arkansas Bar Association here.

## Seventh U. S. Division Fights Forward Over Five Miles In the Frozen Pungsan Hills Sector

By The Associated Press

Seoul, Nov. 16 — (AP)—United Nations forces drove forward all along the cold North Korean war front today.

Smashing advances of as much as five miles in the northeast carried Americans to within 20 air miles of the Manchurian border.

On the northwest front, troops of three nations comprising the entire U. S. First Corps moved through a sleet storm. They advanced as much as four miles without firing a shot.

The Republic of Korea (ROK) First Corps stabilized the left center of the front with short fighting gains.

In Thursday's biggest push the U. S. Seventh Division fought five miles forward in the frozen Pungsan Hills in the northeast against Red artillery, tanks and infantry.

The drive placed the 17th Infantry Regiment in force along the 41st parallel. The doughboys were only 20 air miles south of the Manchurian border.

In the extreme northeast, the ROK Capital Division broke up a North Korean counterattack at noon. The ROKs then drove two miles ahead on the left flank.

Parkia-clad U. S. Marines clashed with a sizeable Communist force as they moved two and a half miles to three miles up the icy west side of the great Changjin reservoir in the center of the Peninsula. Marine 105 MM. guns supported two Marine companies in a clash with the Reds.

Seventy miles to the southwest, the ROK First Corps hammered its way back into the town of Tokchon and recaptured positions along the road linking Tokchon with Kunu.

The ROK Corps is on the right flank of the U. S. First Corps which made Thursday's sweeping and unopposed advance in the far west.

South Korean, British and American forces, comprising this corps, advanced as much as three miles to the north, and stretched out their line to both the west and east. Even patrols reaching far in front of the advance were unable to contact solid enemy positions.

Thursday's advances the full length of the slanting line came the day after heavy Red assaults on Tokchon and on the northeast coast.

American naval gun and planes came to the rescue of the battered Republic of Korea (ROK) Capital Division on the northeast coast. North Korean attacks, including

## American Casualties In Korean War To Date Reported As 28,881; 646 Increase

Washington, Nov. 16 — (AP)—Announced American casualties in the Korean war rose today to 28,881, an increase of 646 over a week ago.

The figure is for casualties whose next of kin were notified through Nov. 10. Actual casualties have been larger since reports to next of kin often lag several weeks behind the casualties.

Of the total announced by the Defense Department today, 4,798 were deaths. Non-fatally wounded numbered 19,740.

Persons reported at one time or another to have been missing in action totaled 4,347. Of these, 517 have since returned to United Nations military control, four have died and 107 are in enemy hands. This left the number still missing on Nov. 10 at 3,719.

The Army has suffered by far the largest number of casualties, 24,987, compared to 3,375 for the Marines, 311 for the Navy and 206 for the Air Force.

The dead were: Army 4,049; Marine Corps 627; Navy 49; and Air Force 73.

Tokyo, Nov. 16 — (AP)—The Red China radio said today North Korean troops "fighting shoulder to shoulder with Chinese volunteers" killed or wounded 8,802 United Nations troops between Oct. 25 and Nov. 8.

The radio quoted a Chinese correspondent of the official Communist news agency. He said 4,338 prisoners were taken in Red counterattacks.

A special Red communique listed casualties as: 2,894 officers and men of the U. S. First Cavalry Division's Fifth Regiment, and 45 Japanese and 5,860 South Korean troops.

General MacArthur's intelligence spokesman said he could not say whether the figures were accurate. He said he could not explain what the communique meant by "Japanese." There are no native Japanese with U. N. forces. And there are not enough American-born Japanese soldiers in the area to account for the casualty figure.

## 1,195-Pound Hereford Steer Helps Ohio Boy To Triple Win At Livestock Show

Pittsburgh, Nov. 16 — (AP)—An 1,195-pound Hereford steer named Sam helped Gene Oates, an 18-year-old Ohio farm boy, to a triple win in the 18th annual junior livestock show.

Sam took two places—the grand championship of the show and the breed championship for Herefords. Another animal entered by Oates, who is a Future Farmer of America from Kenton R. D. 4, won the breed championship for short horns.

The reserve grand championship went to Carl A. Logan, 17, of Irwin R. D. 3, Westmoreland county, a Four-H Club member, for his Hereford steer, Buck. This baby calf also was runnerup in the Hereford breed championship.

Richard Hogue, Canton, O., won the Angus championship, with second place going to Wayne Cooper of Fombell, Beaver county. Edward Johnson, Flushing, O., won second place in the shorthorn division.

Southdown sheep raised by Bradley Elmsinger, Waynesburg, won grand championship pen and individual honors. Jack Shober, Berlin, Pa., won reserve honors with a pen of Hampshire. In individual competition, Ben Hamilton, Washington R. D. 5, was second with a Southdown and Jack Shober third with a Hampshire.

The animals in the show, nearly 400 heaves and 150 lambs, will be sold at auction.

# Kingston Delivery Trucker Is Crowned "Driver of Month"

Wilkes-Barre—Charles F. Rosengrant, Kingston, local delivery driver for the Associated Transport, Inc., Wilkes-Barre terminal, was presented with the Pennsylvania Motor Truck Association's "Driver of the Month" award for October at the annual jamboree of PMTA's Luzerne County Chapter here.

Major Charles J. McRae, commanding officer of the Wyoming Barracks, Pennsylvania State Police, in making the presentation, cited Rosengrant's 11 years and 86,000 miles of accident-free driving as an outstanding record because of the large amount of traffic encountered in the terminal area.

Included in the evening's program was the presentation to the Carr-Consolidated Biscuit Company of the first place award in the miscellaneous cartage division, over 1,000,000 mile class, which the company won in the American Trucking Associations' 16th National Truck Safety Contest.

Rosengrant, in addition to the gold pin and certificate of the "Driver of the Month" award, was given a check for \$50 by H. D. Horton, Associated Transport board chairman and past president and board chairman of the American Trucking Associations. D. C. Wolfe, Wilkes-Barre terminal manager, in outlining the driver's record, lauded him for his service to shippers in addition to the excellent safety record.

Don Roberts, Carr-Consolidated Biscuit Company Safety Engineer, was given an award for his accident prevention activities in winning the ATA award by the Electric Auto-Lite Corporation. The award was given by Robert Teets, Electric Auto-Lite official.

Ludlow, Nov. 16—Intermediate Girl Scouts passed a portion of their Junior citizenship badge work when they were escorted to the polls and judge of election, William Hanson, at an opportune moment explained the process of voting and distributed sample ballots. The girls were very much interested.

# Kingston Delivery Trucker Is Crowned "Driver of Month"

Wilkes-Barre—Charles F. Rosengrant, Kingston, local delivery driver for the Associated Transport, Inc., Wilkes-Barre terminal, was presented with the Pennsylvania Motor Truck Association's "Driver of the Month" award for October at the annual jamboree of P.M.T.A.'s Luzerne County Chapter here.

Major Charles J. McRae, commanding officer of the Wyoming Barracks, Pennsylvania State Police, in making the presentation, cited Rosengrant's 11 years and 86,000 miles of accident-free driving as an outstanding record because of the large amount of traffic encountered in the terminal area.

Included in the evening's program was the presentation to the Carr-Consolidated Biscuit Company of the first place award in the miscellaneous cartage division, over 1,000,000 mile class, which the company won in the American Trucking Associations' 16th National Truck Safety Contest.

Rosengrant, in addition to the gold pin and certificate of the "Driver of the Month" award, was given a check for \$50 by H. D. Horton, Associated Transport board chairman and past president and board chairman of the American Trucking Associations. D. C. Wolfe, Wilkes-Barre terminal manager, in outlining the driver's record, lauded him for his service to shippers in addition to the excellent safety record.

Don Roberts, Carr-Consolidated Biscuit Company Safety Engineer, was given an award for his accident prevention activities in winning the ATA award by the Electric Auto-Lite Corporation. The award was given by Robert Teets, Electric, Auto-Lite official.

**Y CAMPAIGN WIND-UP TONIGHT**

The final victory dinner-meeting for workers in the annual YMCA membership campaign will be held this evening at 6.30 o'clock, and advance reports indicate that it will be a rousing affair, with the top reached, or at least in sight. The high place that the Young Men's Christian Association holds in the estimation of the community generally is emphatically demonstrated by the manner in which it is supported by prominent citizens of Warren, who give generously, not only of their time and experiences, but finances as well, that the boys and young men of Warren and vicinity will have the advantages of this outstanding organization.

Save-the-Children "Bundle Day," under the auspices of a national committee of school superintendents, will be observed in Warren next Tuesday. Articles collected through the committee go to the needy children in isolated rural areas of this country and Europe. Local school officials remind that wearable clothing of all types, in sizes from babies to adults, as well as blankets, sheets and other bedding, etc., are acceptable. Everyone is urged to make the collection one of the largest yet reported.

The Junior Chamber of Commerce and the Warren Youth Canteen committee are sponsoring a deserving project in the vaudeville show to be staged at the Woman's Club, November 25, as a benefit for the canteen fund. Those in charge were disappointed over the receipts from tag days last Friday and Saturday, and supporters of the activity have a change to help give it another boost by purchasing tickets for what promises to be a very interesting evening.

**HERE and THERE**

Fifty years ago this week when two trains on the Pennay collided east of Clarendon, Warren's only piece of fire fighting equipment, the old "Rufus P. King" steamer was taken to the scene on a flat car to extinguish the flames. According to an article in the Evening Times of November 15, 1900: "Trains No. 80 and 99 collided at a point one mile east of Clarendon Tuesday evening about 6.30 o'clock. Cause for the accident has not been made public. The scene of the wreck is a straight piece of track, just west of Watson's, or as is more commonly known 'Bean Town.' Both Engineer Foote, of number 80, and Engineer Fletcher of 99, thought he had a clear track and were sliding along at a good rate. Number 80 had just rounded a curve when her crew saw a train approaching from the opposite direction. The engineers of both trains applied the brakes and then jumped. No one was injured. Seven cars were piled up, four being completely burned and three but slightly. The four cars that were

## "Bundle Day" To Be Observed In Public Schools of the Borough Next Tuesday

Two million pounds of wearable clothing has been set as the goal for this year's Save-the-Children "Bundle Day", to be observed in Warren public schools next Tuesday.

The collection, part of the ninth Children's Clothing Crusade, conducted under the auspices of a national committee of school superintendents, lasts but one day, and parents of Warren school students are urged to help make the local total an important figure in the national figure.

Last year, nearly three million pounds of clothing were collected in 813 Bundle Days in some 40 states and raised a total of 1,300,000 pounds of serviceable, used clothing.

Articles collected through this effort for the Children's Crusade go to children in isolated rural areas of this country and in seven European countries: Children aided abroad are in Austria, Finland, France, Greece, Germany, Holland and Italy, with Federation representatives reporting clothing needs are particularly acute in

Greece, parts of Italy and among refugees in Austria and Germany. At the start of this year, there were four million refugee children in these two countries alone.

In America, clothing is distributed in low-income rural areas of eight southern and mid-western states and on the Navajo Indian Reservation, in which the Federation operates its sponsored school program. Many of the children in these areas come from families with cash incomes of less than \$400 a year. If it were not for the Bundle Day collections, thousands of these children would not be able to attend school during inclement weather because of lack of proper clothing.

Carl E. Whipple, superintendent of borough schools, states that wearable clothing of all types, in babies', children's and adults' sizes, blankets, sheets, and other bedding, and pairs of outgrown shoes are much needed.

## Art Exhibit Now in Penn Academy

Harrisburg.—Word of 88 Pennsylvania artists, including 52 from Philadelphia, are currently displayed in the annual exhibition of Water Colors and Prints and Exhibition of Miniatures in the Pennsylvania Academy of the Fine Arts in Philadelphia, says Theodore Roosevelt, III, secretary of the Pennsylvania Department of Commerce.

Opened on October 28 with a private showing, the exhibit will continue through November 28. It is the 48th annual exhibition of water colors and prints and the 49th exhibition of miniatures. Thirty-three states are represented in the roster of artists and 24 others are exhibiting from Belgium, Canada, China, Cuba, England, France, Holland, Italy, Norway and Sweden. There are 511 works in the exhibit. Eighty-six miniatures were chosen representing the work of 49 artists.

The exhibitions are held in collaboration with the Philadelphia Water Color Club and the Pennsylvania Society of Miniature Painters.

## HERE AND THERE

(From Page Four)  
burned contained corn, and the other hides. A part of the corn was saved. The Kane wrecking crew with a crane arrived first. Little progress was made at first because of the flames. The Warren and Erie crews arrived later, but were of no service because they were on the wrong side of the wreck. About one o'clock the Erie crew returned to Warren with orders to get the steamer, if possible, railroad officials report. Mayor Barnhart and Fire Chief Winger were hunted up and their permission obtained. An alarm of fire was turned in and about 20 of the boys responded. The steamer was loaded on a flat car and taken to the scene of the fire and at 2:50 had a stream of water on the wreck. The fire was soon extinguished and the work of removing the wreckage was short. It is evident that some mistake was made in orders, either by the operators, dispatcher or one of the engineers. The Warren department did excellent work and received a lot of praise from railroad officials for the efficient manner in which they handled the

fire. They returned to the city at 7:30."

The fact that Bob Knight, well known minstrel star of the team of Knight & Daye, through an unfortunate auto accident eight months ago received a broken arm which has necessitated a bone graft operation, has failed to respond to treatment in the time expected, did not prevent this well known comedy team from fulfilling their contract with the genial Denny DiPierri, owner of the White House Inn, Conewango avenue, extension. The team of Knight & Daye have been together continuously for the past 20 years having formed a partnership in Dallas, Texas, in November 1930.

They have toured from coast to coast, having appeared with such famous Minstrels as Al G. Fields, Nell O'Brien's, Lasses White and J. A. Coburn, also appearing in major clubs and theatres. Following their engagement at the White House Inn they will leave for New York where they will appear on television and fulfill theatre engagements. Knight & Daye were intimate friends of the late Al Jolson and paid him a glowing compliment when they said Al Jolson more than lived up to his billing as the "world's greatest entertainer." They feel that Jolson must have died from indigestion, as dozens of celebrities are claiming that Jolson had dinner with them the week before his death.

The team is appearing at the White House Inn and will close their engagement Saturday.

## We Ask That "Fares" Play Fair

Judge Cunningham was telling about a taxi ride he took over to the County Seat last week. The cab was all littered with cigarette butts, plus candy and gum wrappers. This annoyed the Judge and he spoke to the driver about it.

To his surprise the cabman answered right back. "Don't blame me," he said "Fast as I clear this taxi out, the fares just mess it up again. I like a clean cab as well as anybody, but a man has to have some co-operation!"

Judge figures the fellow was in the right, and maybe we ought to

do a little campaigning with the public. I agree with him—that's why I'm writing this article.

From where I sit, it's important for us to remember the fellow who's going to get in the cab after we leave it. Because he pays the same as we do, he's got the same right to a clean, comfortable ride—just as he has the same right to enjoy the beverage of his choice (be it coffee, beer, lemonade, or what have you).

## Committee Works On Excess Profits Tax Legislation

Washington, Nov. 16—(P)—House tax framers, working under forced draft, pointed today toward a target of Dec. 1 as the date by which they expect to have an excess profits levy ready for house action.

After hearing Secretary of the Treasury Snyder outline administration suggestions for skimming \$4,000,000,000 from corporation earnings, the house ways and means committee voted on party lines yesterday to conclude hearings no later than next Wednesday.

With more than 200 individuals wanting to testify, this means many will get no chance to present their views orally, although they may present written statements for the record. The hearings continue today.

The hearing speed-up brought immediate charges of "gag" and "streamroller" from Republican committee members, who showed themselves cool to Snyder's proposal for a 75 per cent levy on excess corporation profits.

By a straight party vote, the committee limited the hearings to one week and put a 15-minute time limit on the appearance of individual witnesses. It also declared that "where possible" no more than one witness should appear for a single industry although more than one could split the 15-minute maximum among them.

It added a further limitation by ruling out testimony on any alternative tax proposal. Some business groups have proposed alternatives to the excess profits tax.

## Seventh U. S. Division Fights Forward Five Miles

(From Page One)

An amphibious landing behind the ROK lines, had ripped holes in the South Korean front and shoved the right flank back within two miles north of Myongchong.

Eight-inch guns of the U. S. Cruiser Rochester and Rockets of Marine and Naval planes wiped out half of a Red battalion which made the amphibious landing, the U. S. Tenth Corps said.

On the west coast, U. S. 25th Division troops captured two guerrilla supply dumps and joined ROK units in clearing supply roads near Pyongyang, former Red capital. Turkish units also are operating against these guerrillas.

Successful behind-the-lines operations permitted opening the east coast port of Hungnam, most northerly U. N. port, and opening railways to speed winter clothing to chilled troops on the front lines.

Temperatures on the western front rose from near zero to above freezing. This was the signal for the advance, despite the driving sleet.

## TURNPIKE WILL BE OPENED NEXT MONDAY

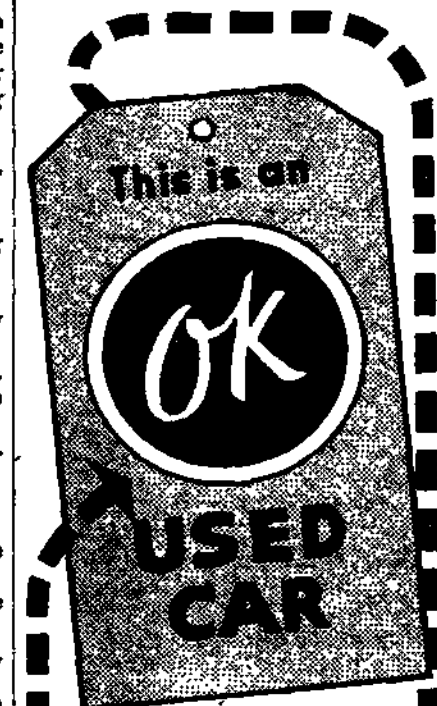

Harrisburg, Nov. 16—(P)—Motorists will be able to make their first trip over the new 100-mile eastern extension of the Pennsylvania turnpike next Monday, & Thomas J. Evans, turnpike commission chairman, in announcing the Nov. 20 opening date, urged motorists to drive with caution while finishing work is being completed.

A series of construction delays postponed the opening from the scheduled Oct. 1 date. The automobile toll will be \$1.20 from Carlisle, eastern terminus of the present superhighway, to King of Prussia, about 12 miles from the Philadelphia city line.

All nine interchanges will be put into service next Monday with the exception of the Gettysburg pike entrance. It will be opened at a later date, Evans said.

## Strike Threat In Radio and TV Eases

New York, Nov. 16—(P)—Strike threats by radio and television performers appeared eased as a TV negotiation season adjourned early today in an optimistic note.

Last night, the AFL American Federation of Radio Artists (AFRA) said strike action would be withheld pending a negotiation session today.

At 2 a. m. today, negotiations between the AFL television authority and the major networks adjourned to an afternoon meeting. A union spokesman said the situation appeared somewhat "better than yesterday."

The unions claim the threatened walkouts would cripple both radio and TV broadcasts. Some 25,000 television actors and 30,000 AFRA members are involved.

Radio networks affected are the American, Columbia, National and Mutual. The television strike threat is directed at four networks—National Columbia, American and Dumont—and WOR-TV.

### FRACTURES HIP

Mrs. Frances Shipman, 63, of Kinzua, who is employed by the G. C. Murphy Company, fell at the store this morning and fractured her hip. Following emergency treatment at Warren General Hospital, she was removed to Hamot Hospital in Erie in the Lutz-Ver-Milhey ambulance.

### CONDITION IMPROVED

Improvement was reported today in the condition of Melvin Bines, of Titusville, formerly of Warren, who was seriously injured several days ago when his shotgun accidentally discharged while he was hunting near Titusville. He is a patient in the Titusville Hospital and would like to hear from his many Warren friends. He moved to Titusville four years ago.

### TWO CROPS DOWN

Asparagus growers of Pennsylvania have indicated that they will harvest the same acreage next year as in 1950, a total of 1,700 acres, according to Federal-State surveys announced by the State Department of Agriculture. The 10-year 1939-48 average asparagus acreage in Pennsylvania has been 2,250 acres. The Pennsylvania strawberry acreage for 1951 is estimated at 1,800 acres which is 100 less than harvested in 1950. This is considerably below the 10-year average of 2,440 acres, the Department said.

### FARM DOLLAR UP

While Pennsylvania farmers were getting slightly better prices during the month ended October 15 than for the previous month, there was no change in prices they paid for goods and services, the State Department of Agriculture announced today following Federal State surveys. As a result, the purchasing power of the farmer's dollar advanced only one cent to \$1.02 based on the 1910-14 dollar being valued at 100 cents, the survey revealed. This value was five cents less than a year previous.

### MORE APPLICANTS

Nearly 300,000 more examinations of applicants for automobile operators' licenses were conducted during the first eight months of 1950 than in the same period of 1949, according to an announcement from State Police Headquarters. Of the 249,672 applicants for licenses appearing for examination from January through August in 1950, there were 86,643 failures of approximately 34 per cent, as compared with 73,114 in the same eight-month period of 1949 when 219,727 applicants were examined by State Policemen, or approximately 33 per cent.

The Philippine Islands, poor in animal life, abound in birds, having some 700 different species.

## Sen. Martin Cites Need For Controls Over Prices-Wages

Washington, Nov. 16—(P)—Senator Martin (R-Pa.) today called for immediate price and wage controls "clear across the board," but Senator Bricker (R-Ohio) voiced a hope they may be avoided.

"Regimentation should be held at a minimum unless we get in an all-out war," Bricker asserted. He contended such steps as higher taxes and elimination of "all unnecessary" government spending would curb inflation.

Martin said he, too, is "hellishly opposed to government interference in business, but the way the dollars situation is going means that something must be done quickly."

Alan Valentine, the nation's economic stabilization director, hinted strongly last night that wage-price controls may be imposed soon unless industry and labor "exercise restraint."

In a speech before the Economic Club of New York, Valentine called for holding the line on prices or reducing them if possible at the expense of profits.

Bricker and Martin expressed their views in separate interviews. By his reference to financial steps which may be used to control inflation, Bricker said he meant increased taxes and sale of government bonds, controls over credit and interest rates and reduction of non-essential government spending.

He conceded that wage and price controls may be needed if the inflationary trend continues.

Earlier this year and only after a bitter fight, congress approved an economic controls law which gives President Truman full discretion as to when or whether wage and price controls should be imposed. The law requires that one cannot be imposed without the other.

### SMOTHERS IN FIRE

### Walter Whaley Greeted by Record Audience for Senior Piano Recital

Long before the appointed hour of appearance of Byron Swanson, of the Conservatory's voice department, who sang two groups of selections in his inimitable style and fine tenor voice.

Mr. Whaley played in the first group three Chopin numbers, showing splendid poise and rare quality of appropriate expression. He closed this group with Dr. LeRoy B. Campbell's "Concert-stroke" in C minor for two pianos.

Interest was heightened by the

Miss Adelaide Swanson at the second instrument. She also played the accompaniments for Mr. Swanson's songs in artistic tone and perfect support.

The pianist's second group disclosed a very neat and clear cut technique, his numbers being a Sonata by Mozart and a Bach selection.

Mr. Swanson was at his best in the operatic aria from "L'Africaine" by Meyerbeer, a number done with dramatic power and expression. In contrast were The Old Refrain by Kreisler and a number by Frum, given with beautiful simplicity and rare expression.

Mr. Whaley's third group consisted of two well known numbers, the second his own attractive setting of the Brahms' Lullaby.

The highlight of the evening was the great Concerto in B flat minor by Tchaikowski, a work which Mr. Whaley played in excellent style, fine technique and splendid contrasts rising to virtuosic proportions in the climaxes.

Directly after the recital, a reception was held at the YWCA for Mr. Whaley and a number of out of town guests.

#### Lawns Are Not as Important As Your Children's Happiness

WHICH is more important for families with children: A well-kept lawn or a neighborhood baseball diamond? It's surprising how many parents these days decide the beautiful lawn is more important.

I know, because it's a question most of the families in our neighborhood have to decide. Because so many of them decided in favor of a beautiful stand of grass, we're getting worn spots on our lawn.

But what's so wonderful about having a beautiful lawn if kids can't turn it into a playing field on a pretty day?

What are a few worn spots on a lawn if they mean that a crowd of children are out of doors, running and playing, developing their skill at a favorite game?

A woman reader asks me to write a piece about how awful it is for kids to turn front yards into playgrounds and spoil the beautiful effect of a neighborhood of beautifully kept yards.

#### A YARD SHOULD BE PLAYED IN

I CAN'T do it. I can't see any sense in a family with children having a yard too beautiful for the kids and their friends to use as a playground.

There will be time enough when the children are grown for a couple to coddle a lawn. And for the couple who have no children or whose children are already grown, a view of the perfection of their own yard should satisfy them.

Why worry about what the yard next door looks like if the main thing wrong with it is that it is always over-run with children having fun?

It seems to me we're getting too beauty conscious when we look at children at play and begin to wonder if they're going to wear a bare spot in the lawn or trample a flower or two.

#### DR. CAMPBELL JUDGE FOR ERIE CONTEST

Dr. LeRoy B. Campbell, head of Warren Conservatory of Music, was one of three judges selected to audition contestants in the annual music contest sponsored jointly by the Erie Philharmonic Society and the Erie Music Teachers Association.

From the eight students, unanimous choice of the three judges was Robert Blanchfield, 15 year old Lawrence Park High School pupil, whose playing of the Mozart Concerto in D Minor won him the coveted spot as soloist with the Philharmonic Orchestra in its recital in Gannon auditorium, on December 9. Presented at 3 p. m., the concert is jointly sponsored by the Musicians' Union Recording Fund and Gannon College.

Serving with the Warren teacher-musician as judges were Fritz Mahler, music director of the Philharmonic, and Max Landow, prominent figure at Eastman School of Music in Rochester.

The affair was given at the Theodore Allenson home, the honored one receiving many lovely gifts from 22 guests of Jamestown, Irvine, Lander, Lakewood and Sugar Grove. The evening was spent with games and visiting, with dainty buffet refreshments served from a table centered with two heart-shaped cakes and candelabra in a pink and white color scheme.

## Woman's Club Is Ready for Throng of Visitors at Annual Bazaar on Friday

Tomorrow afternoon and evening the doors of the Woman's Club will be open to everyone while the annual bazaar is in progress.

There will be booths displaying aprons, articles for infants and small children, knitted articles, what-nots, special household linens, and delicious home baked goods.

The food booth is under the chairmanship of Mrs. J. P. Wendell and Mrs. C. H. Frantz and promises to have on hand a full line of delicacies.

Mrs. W. Howard Alexander and

Mrs. E. M. Branch have been in charge of a club committee functioning for many months in preparing household linens and articles and the bazaar, open to everyone at no admission charge from one until nine on Friday, will show evidence of this group's work in assembling unusual and decorative as well as practical gifts.

One booth that always manages to hold a surprise or two is that devoted to what-nots. Here are to be found tiny items to be used as stocking stuffers; practical gadgets for personal use by the house-

wife; old records for the collector; books of all kinds. Mrs. R. J. Costley and Mrs. Gelsten Howell have also assembled a table of assorted bridge prize suggestions, and for the children there will be the always-popular grab bags.

Mrs. Paul Fago has agreed to take charge of the popcorn wagon and pop stand, planned for the youngest visitors but sure to be the center of fun for all ages.

Another of the popular features will be the attractive corner where tea is served throughout the hours the bazaar is open. Mrs. F. A. Beardsley's Entertainment Committee is in charge of the tea serving, with Mrs. Clayton Rudiger and Mrs. Carl Hultberg assisting in seeing that this part of

the gay affair is going smoothly. The public is always cordially invited to this annual bazaar, from one until nine, and small fry may be left in the supervised nursery while parents shop.

SOCIETY

World Fellowship Financial Support Greatly Needed

The world fellowship committee the YWCA invites the public to Mary Johnstone, Jamestown's 11th ambassador to France, at 11 o'clock this evening, at the YWCA, to help the financial aid for the world fellowship.

Funds are used in YWCA work and the world—in Japan, where mothers were so eager to end a leadership conference that they traveled long distances from their villages with young babies strapped to their backs; in Turkey where the YWCA helped an orphan girl who had a leg amputated, to adjust herself anew to life and become self-supporting; in Mexico, where the YW helped 15 year old to learn English, find friends and a job, and ally to emerge as a confident leader to teach others; in Egypt, where a YWCA health clinic treats 250 girls, women and boys a day on a budget of \$300 a year.

Proof of the value of world fellowship is shown in the look of hope on the faces of displaced persons and refugees in troubled areas of the world, such as the Middle East, the Far East, and Germany, where the YWCA without regard to class, creed or color has set up programs, furnishing materials and instructions for sewing and knitting classes, taking the homeless children who have never in their lives known the security of family life, for a few weeks of health and fun to summer camps by the sea.

Other pictures could be given of many types of service rendered in 65 different countries. Everyone who gives to world fellowship is helping to make this service possible.

It was pointed out that any others in the community who would like to share their Christmas with these children may send checks to Miss Claire Elliott, c/o Children's Aid Society, 404 Market street, Warren. Such gifts will be carefully used to bring happiness to the children at Christmas-time and will be greatly appreciated by the agency.

## Yalu Boundary Between Manchuria and Korea Sensitive Nerve for Red Chinese

Tokyo—(AP)—The Yalu river boundary between Manchuria and Korea is an exposed nerve and a very sensitive one for the Chinese Communists.

For that reason, say American intelligence officers, the Reds may have felt compelled to defend the river.

If so, there is considerable hope in Tokyo today that the Peiping government can be convinced that United Nations force have no intention either of damaging the giant hydroelectric complex harnessing the Yalu or of violating it as a boundary.

But if the Chinese have dispatched elements of four army groups into North Korea to "save face" for the Communist world, then a heavy hand doubtless will be laid on that exposed nerve.

The issue still is hanging in the balance whether China will be condemned by the U. N. as an aggressor or whether high level diplomatic negotiations may result in a withdrawal of the Red Army from North Korea.

If they do not withdraw, the rail and highway bridges spanning the Yalu and, more important, the various dams and power plants that harness the river doubtless will be destroyed by aerial bombing. They would be legitimate military targets since most of the power for the industrial plants in Manchuria is generated by the river.

It rises amid the 9,000 foot high Changpai mountains, the "ever white" range in the northeast. It is fed by swift-flowing, boulder-strewn streams that race down from the Kalma plateaus which are covered during about half the year with snow.

It is a mighty river. Over the centuries, like the Colorado, it has cut and sawed through the mountains, creating glowering perpendicular cliffs, thousands of feet deep in some points.

When it reaches less mountainous country emerging from the sharp rocky walls, the river relaxes a little—Flowing more gently through the northwest.

It is about half a mile wide at Sinuiju, one of the twin border towns hit hard on Wednesday with thousands of incendiaries. It is three-quarters of a mile wide at the mouth on the yellow sea.

Until 1945, when the Japanese were defeated, the Yalu was a boundary line only on the map.

The Japanese controlled both Manchuria and Korea. There was a perfunctory examination of passports for foreigners when the trains crossed the border but it was for purposes of the ever watchful Japanese police and not because this was a genuine international boundary.

Therefore, the exact location of the boundary between Manchuria and Korea today is somewhat ambiguous.

In some places it is considered

## Now She Shops "Cash and Carry"

Without Painful Backache

As we get older, stress and strain, over-exertion, excessive smoking or exposure to cold sometimes slows down kidney function. This may lead many folks to complain of nagging backache, loss of pep and energy, headaches and dizziness. Getting up nights or frequent passages may result from minor bladder irritations due to cold, dampness or dietary indiscretions.

If your discomforts are due to these causes, don't wait, try Doan's Pills, a mild diuretic. Used especially by millions for over 50 years. While these symptoms may often otherwise occur, it's amazing how many times Doan's give happy relief—help the 15 miles of kidney tubes and bladder flush out waste. Get Doan's Pills today!

to be the center of the stream. But in others, notably in the west, large sand bars are considered to constitute the boundary. No international convention has ever definitely established the boundary.

There are six known rail and highway bridges linking Manchuria and Korea. Or at least there were prior to American air attacks on those at Sinuiju. The aircraft hit one of the bridges at that city. The Manchurian "twin" of Sinuiju—Antung—is on the north bank of the river.

Japanese sources said there are two bridges at Sinuiju, two at Manpojin and one each at Chong-sanjin and Kanggi. All were constructed by Japanese engineers.

But American intelligence suspects that some others may have been thrown across the Yalu in the five years North Korea was a Communist satellite and during the one year since China became a Communist state.

### Dec. 15th Deadline For Making Annual Reports On Fairs

Harrisburg — The 1950 season was one of the largest ever experienced by county and community fairs in Pennsylvania—but the fair associations should speed up their annual reports to the State Department of Agriculture if they want to get their share of state aid toward payment of premiums on agricultural exhibits, the Department warns.

Only 12 of 107 county and community fairs had filed premium reports with the department up to last week-end. The deadline is midnight, December 15, according to Frank S. Keet, comptroller.

First of the 1950 fair reports to reach the department was that of the Bradford County Fair, received August 24 from A. C. Buice, secretary of the fair association. Second was the Lycoming County Fair held at Hughesville, August 7-12, Keet said. It arrived September 7 from the association secretary, Elton B. Edkin.

Among the larger fairs, the report of the York Fair was the first to be filed, sent from the office of Samuel S. Lewis, president, about two weeks after the fair closed on September 16.

The longer the fair reports are delayed the longer all fairs will be required to wait for their state funds to aid in payment of premiums on agricultural exhibits, Keet declared. He explained that all must be thoroughly audited before allocations can be made to any fair association. When reports are held until the last minute the auditing is delayed. Payments usually are made in late February or early March.

# 200,000 freshmen can't be wrong!

We believe that something has happened in 1950 that you should take to heart.

Ever since this year's Buicks were introduced, their big bulge in sales has come from people who traded other makes of cars for this bounteous beauty.

The total is more than 200,000.

That's 200,000 "freshmen" added to the roll call of Buick owners—200,000 people who must have sized up the current version of the cars they owned, and decided that Buick offered more thrill, more comfort, more satisfaction for the money.

Beyond that, of course, there were other hundreds of thousands who already owned a Buick and bought a new one this year. But we're speaking here of new owners only.

We can name many reasons for this landslide—including Fireball power—an incomparable ride—and Dynaflo Drive.\*

We can remind you that the Buick SPECIAL, SUPER and ROADMASTER just about blanket the range of a car-owner's aspirations—matching prices with many sixes in the lower brackets—matching distinction with the finest in the fine-car field.

We might add that Buick prices are doubly attractive—since their list prices include many features customarily on the "extra" list.

But why try to spell out all the reasons Buick wins in a showdown comparison? The proof of the pudding is in this great car itself. Better come in—look it over—and find out what an unbeatable buy it is.

\*Standard on ROADMASTER, optional at extra cost on SUPER and SPECIAL models.

### Crop Estimates For Fall Vegetables Is Reported Average

Harrisburg — Latest estimates on production of various commercial vegetable crops grown in Pennsylvania show that favorable weather conditions during September brought increases in the estimated production of Danish cabbage, carrots, celery, and fall spinach, the State Department of Agriculture reports following a Federal-State survey.

Production of each crop, except spinach, will be greater this year than last.

Production of Danish cabbage in the State is now indicated to be 27,300 tons compared with 24,300 in 1949 and the 10-year 1939-48 average of 23,000 tons.

Pennsylvania commercial production of carrots is estimated to be 600,000 bushels, whereas the 1949 production was 480,000 and the 10-year average was 590,000 bushels.

Celery production in the State, as of October 1, was indicated to be 158,000 half-crates compared

with 186,000 last year and the average of 251,000.

Pennsylvania production of fall spinach is 784,000 bushels compared with 891,000 in 1949 and the average of 688,000 bushels.

**HELPFUL VOLCANOES**

Volcanoes, destructive at times, still are responsible for bringing enormous wealth to the earth's surface, where human beings can make use of it. This wealth is in the form of gold and diamonds, water, and other life-giving chemicals.

### Output of Creamery Butter Reported Up

Production of creamery butter in Pennsylvania showed a decline in September compared with August 1950 and September 1949, the State Department of Agriculture announced following Federal-State surveys.

However, production for the first nine months of this year exceeded that for the same period in 1949, the Department said.

September butter output in the State totaled 1,300,000 pounds, or 11 per cent less than August and 13 per cent below September 1949. The 1944-48 September average for the State is 1,051,000 pounds making production for September 1950 about eight per cent above average.

In 1947 a new record was established in Pennsylvania for milk production. Butter manufactured in that year was nearly 11,000,000 pounds. In 1948 the butter output dropped to 9 1/2 million pounds but last year it advanced to 12,655,000 pounds. For the first nine months of 1950 production is estimated at 10,960,500 compared with 9,865,000 pounds for the same period in 1949.

Pittsburgh, Nov. 16 — (AP)—Jake Mintz, co-manager of heavy-weight champion Ezzard Charles, says he won't permit radio and television broadcasts of Charles' future fights. It's all a matter of economics, declared Mintz. The International Boxing Club, which plans bouts for Charles in several cities, has a contract calling for radio and television broadcasts.

### Bradford Archer Bags a Six-Point Buck In Allegany

Salamanca Press: A Bradford archer bagged a nice six-point buck in Allegany State park as the special bow and arrow deer season entered its second day. Hunters were in action from Pennsylvania, Ohio and this state.

Bruce McKetrick, 45 Pleasant street, Bradford, shot the 120-pound buck shortly after 9 o'clock. Leigh J. Batterson, executive secretary, said.

With ninety-one longbow hunters stalking deer in about 20,000 acres in the state park hunting area, Mr. McKetrick got his on the Johnson farm. The farm is opposite Arrowhead camp in upper Big Red House.

### Nittany Lions Will Entertain Rutgers

State College—Rutgers University's potent one-two punch—Walt LaPrarie and Jimmy Monahan—will be Penn State's main problem Saturday when the two eleven collide here for the first time since 1918. Kick-off time is slated for 1:30 p. m.

The versatile Monahan, who does everything but carry the water bucket, has piled up 486 yards along the ground at a 54 yards-per-carry clip, and also has gathered in eight passes for a gain of 145 yards and two touchdowns. His kicking average is 35.2 yards.

His running mate, LaPrarie, hasn't done too well along the ground but in the air he has completed 47 of 94 passes for a gain of 826 yards and two touchdowns. His main receiver, 18-year-old

### Corning Admitted To the Pony League

Buffalo, N. Y., Nov. 16 — (AP)—Sale of Lockport's Pony Baseball league franchise to Corning has been announced.

Vincent McNamara, league president, said the board of directors had approved a request of the Lockport Baseball and Amusement Co. for transfer of its franchise to Corning Baseball, Inc.

Lockport, which finished in the basement last season was reported to be \$11,000 in the red. Although the purchase price was not disclosed it was understood that it provided for payment of the indebtedness.

McNamara said the lineup next season will not have any other changes.

It has been rumored that Batavia, which is about \$4,000 in arrears, and Wellsville, without a working agreement with a major league club, might also drop out.

Besides Corning, Niagara Falls also had made overtures to McNamara. The Niagara Falls group felt it might be forced to drop from the Mid-Atlantic League if the circuit is raised from Class C to B. Niagara Falls was a charter member of the Pony League.

Another potential candidate for the Class D Pony league was Erie, formerly in the circuit in 1944-45.

## THE RAILROAD MURDER CASE

By R. M. Laurenson

Chapter 20

"MARC JORDAN," demanded "Nora breathlessly, "what are you up to? You've been talking in riddles all afternoon."

"Not riddles, Nora, just indirectly."

"And you were positively indecent—eying her like that! You never look at me that way!"

Marc grinned at her. "Would you want me to? Anyway, it was all strictly in the line of business. Pretty legs seem to loom large in this affair."

"Well, I don't like it," said Nora, pulling her coat about her. "And she's a—well, she's—"

"Yes, she certainly is," Marc skillfully backed the car out of the driveway.

"Sometimes your manners annoy me, Marc. Usually you're such a gentleman I don't like it when you're rude."

Marc glanced at her soberly. "Neither do I, Nora. Some people mistake courtesy for weakness. I don't enjoy being rude, but there are times when I realized it can be helpful."

"Maybe, but I still don't like it. Now where are we going?"

Marc looked at his watch. "It'll soon be time to satisfy the inner man. The pangs of hunger creep up on me. Let's head for town and food."

Arriving at the outskirts of the town, Marc drove through several side streets and finally nosed the car up to an express wagon parked on the railroad station platform. Climbing out, he and Nora entered the station and approached the ticket window.

"Mr. Jones," asked Marc, looking up at the name posted over the window.

"That's right. What can I do for you, sir?"

"Marc Jordan. I'm with the company," Marc slid one of his cards through the grating. "Could I talk to you for a minute, please?"

"Oh, yes, Mr. Jordan. Of course."

"I suppose you've heard about Mr. Richards?"

"Yes. Terrible, isn't it? Old Dick was a fine one. I hope they catch the crook."

"So do I," agreed Marc. "Were you on duty last night?"

"Yes, sir, I was."

"I wonder if you remember any of the Pullman passengers who got on the Flyer here last night?"

"Why, I only sold space to one passenger. A lady came up just before train time and bought space to Chicago."

"In that case, perhaps you remember her well enough to describe her?"

"Well," he hesitated, "yes and no. I'm afraid I can't tell you much about her. She wasn't so very tall, about medium I'd say, and she was wearing dark glasses and a cloth thing over her head. I couldn't tell you what she looked like, except that she had right pretty legs."

Marc shot an amused glance at Nora. "Pretty legs! Splendid. There was a woman on the train last night whose actions were—say the least—peculiar. We've been trying to trace her. Is there a garage handy where cars can be parked all night?"

Jones considered a moment. "Most garages around here close up at six. There's the Buick garage across the street, in the next block, stays open all night, and another about four blocks toward town."

"Fine. Thank you, Jones. No need to bother you any more."

"Glad to help, Mr. Jordan. If I can do anything, let me know."

MARC and Nora left the station and crossed the street to the garage. A lanky, pasty-faced youth sat on a rickety chair tilted against the wall, and worked diligently on a mouthful of gum.

"Hello, mister," said Marc. "You the night man here?"

Marc pulled his hand from his pocket and flashed a bright object in his palm before startled eyes. The chair legs came down

with a bang and the boy scrambled to his feet.

"Yes sir."

"I want to know if a red sport coupe was parked here last night?"

"Sure was. She's in here right now." He led the way through the dark cavern of a door to where a big red coupe nudged the wall of the garage. Marc glanced at it and, pulling out his notebook, wrote down the license number.

"When was the car brought in?" he asked.

"Around nine. Little later, maybe. A lady parked it. What's the matter? Is this pile hot?"

"No, it wasn't stolen—at least I don't think it was. Now the useless question—what did the lady look like?"

"She had on dark glasses and a light tan coat and—"

"And had pretty legs!" interrupted Marc dryly.

"Yeah. How'd you know?" asked the boy in surprise.

"Did she leave her name?"

"No sir. I gave her a ticket and she said she'd be back in a few days."

"O. K., buddy. Much obliged." Marc led the way up the street in silence. They went into the coffee shop of a neat little hotel. As they sat waiting for dinner, Nora asked, "What was the picture you wanted Mrs. Johnson to identify?"

Silently Marc pulled out the picture and held it up for her to see. A handsome, blonde young man leaned debonairly on a porch rail and stared impudently at her.

"Why," she exclaimed in surprise, "that's your brother Neal! What in the world did you show her that for?"

Marc smiled grimly, and returned the picture to his pocket. "A trick as old as the hills, Nora. I wanted to get Mrs. Johnson's fingerprints without her knowing about it. I think we'll find them very nicely framed on that lovely picture of my good-for-nothing brother!"
